

Check the Size of Your PDF Document

NOTE: There are several methods for finding the size of a PDF document and this is just one of them. The instructions are intended only as a general description of the process. These instructions were prepared using Adobe Acrobat X. Your procedure may vary depending on which PDF creation software you are using.

- 1) Open your PDF document in Adobe Acrobat. Choose **File > Properties**.

- 2) The **Document Properties** dialog box will open. File Size can be found on the **Description** tab in the **Advanced** section.
